

Ifat Mentesh

PRIVATE HOME

I included **Dekton Kelya** cladding, cut in geometric patterns.

A living room wall that radiates prominence and prestige. The wall integrates a stove to complete the atmosphere and the connection between the veins forms the perfect look. On the wall we included an air conditioning vent and a smoke vent which naturally blends in with the marble to create a clean look.

In the bathrooms I seeked clean, exclusive look and cladded the bathroom cabinets with **Dekton Kelya**.
